EXPERIENCE

Senior Software Development Teacher Assistant,
CodeWorks

11/2020 - present

- Attended CodeWorks as a student from 11/2020 - 3/2021, upon graduation was offered a position as a teacher assistant. With hard work and proven student satisfaction received promotion to Senior Teaching Assistant.
- Facilitated code reviews with 75+ students regarding comprehension and completion of checkpoints. Coached students on how to improve their code and grade.
- Collaborated with the rest of the CodeWorks team in daily scrums and weekly meetings to better understand students' progress and pitfalls. Strategized with team to improve student experience from admissions to graduation.
- Organized, created and facilitated supplementary content for after hours workshops to increase comprehension of various topics including reviews, whiteboard challenges and new application builds.
- Tested, reviewed, and provided feedback on new applications prior to introducing them to students and core curriculum.

Assistant Manager, Coldstone

08/2018 - 08/2020

- Promoted to assistant manager within the first year
- Implemented company policies in areas that were more neglected, keeping the standard the same for all 15 plus employees.
- Developed a system to report problematic behavior/situations of other employees creating a more organized and protected work environment. This involved allowing service reps to have a clear and easy way to communicate to those in higher positions without having to address it in a team setting.

APPLICATIONS

Herd- A social media application similar to twitter, it allows users to interact through posts, comments, direct messaging, and randomly generated hashtags. Everyone want be heard on herd!

The Tower- Tower is a ticket purchasing application that allows users to post and buy tickets to all their favorite events. Get tickets, leave comments on upcoming events, and get ready to attend.
